## About Us

Today, "SPRAYNOZ TECHNOLOGIES PVT. LTD." is leading company and popular name in the market for manufacturing of different types of industrial spray nozzles and accessories .

We at 'SPRAYNOZ TECHNOLOGIES PVT.LTD.' provide the best in quality products for the various industries. Providing the best in quality products to our customers with an innovative touch. We also manufacture tailor made products, on request of our customers which has helped us gain a good market presence. We not only supply products but also provide full solutions to our customers as per their needs & requirements.

'SPRAYNOZ TECHNOLOGIES PVT. LTD.' is committed to the highest in quality standards, quick response, technical assistance and in time delivery.

Please feel free to keep in touch with us about any of your business-related requirements/queries.

We look forward to a wonderful relationship together and success for all concerned.

## Our Clients

Larsen and Toubro

# INFRASTRUCTURE & FACILITIES:

## Machining

State-of-the-art machine shop for precise and accurate machining. This facility is manned by competent professionals to manufacture with Quality & Time Bonded manner.

## High Tech Turning

Our turning department has one lathe at its disposal, ranging from standard 2-axis CNC equipment to an advanced 2-axis ACE – Micromatic, with live tooling. We use modern carbide tooling and can achieve surface finishes up to 4  $\mu$ m (RMS), often avoiding the need to polish the part afterwards. We can accommodate nearly any turning project, whether it's a miniature part or something 12" in diameter. Even more, our machinists and toolmakers are always searching for ways to optimize their manufacturing methods to decrease production time and cost.

Our programmers have dedicated computer workstations for 2D and 3D modeling, and our skilled craftsman can even program directly from the shop floor on their machine

## Power Milling

Our milling department is the medium machining section of our company, will add more machine in future. We perform vertical and horizontal milling on 3 or 4 axes. Our equipment and skilled staff can handle a wide variety of jobs, ranging from general milling to super-accurate operations – all the way to 30 millionths (0.00003) of an inch using our Micron 400U! These tolerances lend themselves specifically to the needs of the Aerospace, Defence, Pharmaceuticals & General Industries

The high spindle speeds permitted by our sophisticated machines and tooling provide incredible surface finishes, too. With finishes in the 6-8  $\mu$ m (RMS) range, many parts can be completed without the added step of polishing.

# INFRASTRUCTURE & FACILITIES:

## Inspection

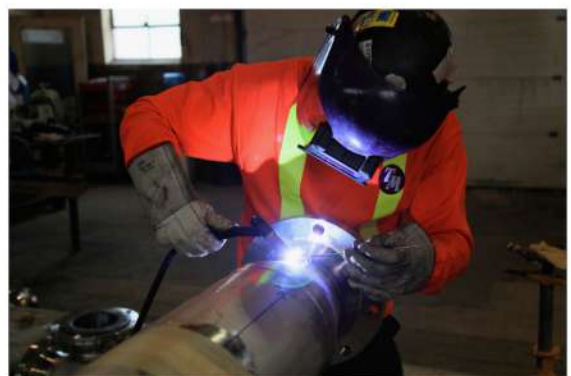

### Inspection facility

Spraynoz Technologies Pvt. Ltd. has a well-appointed inspection room with the latest in advanced measuring equipment. We have several precise instruments to inspect in microns. We can check both the dimensional accuracy and surface finish of machined components. Our staff is also skilled in using conventional inspection equipment, such as micrometres and callipers.

### Welding Facility

Spraynoz Technologies Pvt. Ltd. has TIG & Gas Welding Facilities. We have separate enclosed room for TIG welding of Aluminum & various grades of stainless steel related to precision engineering. We have in our employment 6G qualified welders.

# INFRASTRUCTURE & FACILITIES:

## Testing Facility

### Pneumatic Testing

We have a Pneumatic test facility to check and control airflow rates in spray nozzles and also machined items if requires.

### Liquid Testing

We have a liquid test facility to check and control flow rates in spray nozzles and also machined items if requires.

### List of Machineries:

Sr. No.	Machine
1.	CNC Turning Machine
2.	Milling Machine
3.	Conventional Lathe Machine
4.	Drilling Machine
5.	Band Saw Cutting Machine
6.	Welding Machine
7.	Grinding machine
8.	Polishing Machine & etc.

### List of Instruments:

Sr. No.	Instrument / Equipment
1.	Vernier
2.	Micrometres
3.	Dial Gauges
4.	Bore Gauges
5.	Ring Gauges
6.	Plug Gauges
7.	Height Gauges
8.	Thread Gauge & etc.
9.	Radius Gauges
10.	Digital weighing Balance & etc.

## DECLARATION

I hereby confirm that the information furnished above is correct to the best of my knowledge and belief.
